## ***PREFACE***

This three-volume Encyclopedia is a comprehensive compilation of tradename products that function as additives in enhancing the properties of various major industrial products. With the cooperation of numerous national and international chemical companies, complete information on all applicable properties of these additives has been organized using technical data sheets and product bulletins as source material.

The Encyclopedia is divided alphabetically into sections based on principal function. As many of these additive products have many uses, extensive cross-referencing is provided. Under each category the tradename products are also listed alphabetically. An index to all tradename products is provided for each volume so that any additive can be found without knowing its principal function.

We believe that this Encyclopedia will prove to be an invaluable reference tool for chemists, engineers, and all those associated with the chemical manufacturing industry. We would like to thank all those companies who made this work possible through their contributions and we would like to also extend our warmest heartfelt thanks to Roberta Dakan who has devoted herself to helping make this work as accurate and consistent as possible.

### **NOTE**

Unless otherwise specified, when the temperatures are not given for properties such as viscosity, density, solubility, etc., a standard temperature of 25 C is to be assumed.

# **CONTENTS**

Modifiers . . . . .	1
Neutralizers . . . . .	15
Opacifiers & Pearlescents . . . . .	16
Plasticizers . . . . .	24
Powder Coatings . . . . .	90
Preservatives . . . . .	96
Processing Aids . . . . .	105
Release Agents . . . . .	108
Retarders . . . . .	128
Sizing Agents . . . . .	131
Softeners . . . . .	139
Solubilizers . . . . .	143
Solvents . . . . .	205
Stabilizers . . . . .	223
Suspending Agents . . . . .	325
Tackifiers . . . . .	331
Thickeners . . . . .	358
UV Absorbers . . . . .	409
Vulcanizing Agents . . . . .	421
Water Repellents . . . . .	424
Whitening Agents . . . . .	429
Index . . . . .	433
